

CERTIFICATION COURSES

Information and Application

Why take a course through the World Trichology Society?

The World Trichology Society is an organization dedicated to raising the standards and improving the education of trichology students worldwide.

The World Trichology Society courses **can be taken remotely from anywhere in the world** and they are overseen by the Society's President, Dr. David H. Kingsley, PhD.

All students receive the WTS Newsletter, which includes regular updates on the latest developments in general health and hair loss & scalp research from around the world.

All successful students will be listed on the World Trichology Society's website: www.WorldTrichologySociety.org

THE WORLD TRICHOLOGY SOCIETY OFFERS THREE COURSES:

- 1) Associate Trichologist**
 - 2) Full Trichology Certification**
 - 3) Doctor Of Health Science (D.H.S.)**
- With A Personalized Concentration In Trichology**

1) ASSOCIATE TRICHOLOGIST

- Basic course for the professional who wants to learn more about common hair loss and scalp conditions and who does not want to practice trichology as a profession.
- Perfect for people in the hair care and health industries:
 - 1) hairdressers
 - 2) cosmetologists
 - 3) health-care professionals
- Students who successfully complete the Associate Trichologist course will receive a diploma.
- **Successful completion of the associate course** can be used as **partial** credit for the World Trichology Society's full trichology certification course (see below).
- Associates are **NOT fully certified trichologists** and are unable to use the prestigious 'WTS' suffix after their name.
- However, your name **WILL** be listed on the Society's website (with active membership in the Society).

Syllabus, which consists of 6 sections, includes:

- Introduction to trichology
- Anatomy & physiology of the hair
- Genetic hair loss
- Alopecia areata (patchy hair loss)
- Telogen effluvium (general hair thinning)
- Traction alopecia (hair breakage)
- Dandruff and other common scalp conditions
- Two-day trichology workshop at Dr. David Kingsley's trichology center in New York.

- **Course must be completed within ONE calendar year.**

- **Associate trichologist course fee** is US\$1,500.00 total:
US\$900.00 for academic section of course (6 sections).
US\$600.00 for workshop with Dr. David Kingsley
(2 days in New York City).

1) Distance-Learning = \$900.00 USD
(Paid in TWO US\$450.00 installments).

2) Workshop = US\$600.00 USD
\$250.00 USD deposit is due upon booking one month before training.
Note: This deposit is non-refundable.
\$350.00 USD balance is due at the beginning of training.

(If you wish to take the full trichology certification course after **successfully** completing the associate course, \$600.00 will be credited to the relevant distance-learning Chapters and a further \$200.00 will be credited to the clinical training portion of the full certification course).

2) FULL TRICHOLOGY CERTIFICATION

- In-depth course for professionals who wish to become certified trichologists, and so become a highly regarded professional by your peers.
- Course gives you the tools to practice trichology and set up your own trichology center and also to give you the edge in promoting your new venture.
- The ability to help your clients with hair loss and scalp problems.
- Certified trichologists are able to use the prestigious 'WTS' suffix after their name (with active membership in the Society).
- Links to other hair loss and scalp specialists from around the world.
- Your name and contact information added to our website.

Course Structure

Clinical Training

Dr. David Kingsley offers a 5-day clinical training seminar at his New York City trichology centers twice a year.

Distance-Learning

The distance-learning portion of the course is comprised of 28 chapters, **including one-on-one telephone tutorials with WTS faculty**. Each chapter is purchased individually.

Tests are included for each chapter. When ready, complete the test and send it via e-mail. You will receive an e-mail with your marks together with any comments from the professor.

Tests can be retaken if necessary. Once passed, you will then be able to pay for the next chapter, which you will receive through e-mail.

The entire distance-learning portion of the course should take between 6 and 24 months depending on the amount of time you are able to study. **You are required to complete at least one Chapter per month.**

Course Syllabus

- Introduction to Trichology and the trichological sciences
- Basic human biology, chemistry & physics
- Basic genetics

Anatomy & physiology of the human hair and scalp

- Structure & function

Hair loss conditions and their causes including:

- Alopecia Areata (patchy hair loss), Alopecia Totalis & Universalis
- Androgenic Alopecia in males and females (genetic hair loss)

- Traction Alopecia (hair breakage)
- Genetic and congenital hair fiber problems

Scalp disorders, including:

- Folliculitis (scalp breakouts)
- Seborrhoeic Dermatitis (scalp flaking)

Other hair & scalp conditions, including:

- Hirsutism (excess body hair) and hypotrichosis

Treatments for hair loss, including:

- Surgical/Non-Surgical
- Medicinal

Treatments for scalp problems:

- Trichological and medicinal

Trichology consultations, including:

- Recognising different hair loss and scalp conditions

Operating a Trichology center, including:

- Marketing your center

• **Certified trichologist course fee** is US\$4,000.00 total:
\$2,800.00 for academic section of course (28 chapters).
\$1,200.00 for clinical training with Dr. David Kingsley
(5 days in New York City).

1) Distance-Learning = \$2,800.00 USD
(Paid in \$100.00 USD installments for each chapter).

2) Clinical Training = \$1,200.00 USD
\$500.00 USD deposit is due upon booking one month before training.
Note: This deposit is non-refundable.
\$700.00 USD balance is due at the beginning of training.
Note: Clinical training is usually taken upon completion of the distance
learning portion of the course (can also be taken after the **successful
completion** of Chapters 1 to 16).

FOR ASSOCIATE & CERTIFICATION COURSES ONLY:

What materials do I need?

- Computer with Internet access
- E-mail account

How do I get started?

1) Print and fill out the Terms and Conditions and Registration Form below.
Then fax to 1-718-370-3745, or
scan and e-mail to: education@worldtrichologysociety.org

2) Visit:

http://www.worldtrichologysociety.org/membership_and_certification
to make the first payment.

The courses are easy to follow, up-to-date and are taken on your own
computer, with no bulky books to carry around.

The courses feature an affordable payment schedule.

Any questions?

Please e-mail: education@worldtrichologysociety.org
or call 1-718-698-4700.

3) DOCTOR OF HEALTH SCIENCE (D.H.S.) WITH A PERSONALIZED CONCENTRATION IN TRICHOLOGY

The World Trichology Society is delighted to announce the **World's FIRST post-graduate degree that incorporates courses in Trichology!**

The Society has partnered with the **Huntington College of Health Sciences**, which offers the doctoral degree of **DOCTOR OF HEALTH SCIENCE (D.H.S.) WITH A PERSONALIZED CONCENTRATION IN TRICHOLOGY** that has been **accredited** by the USA's Distance Education and Training Council (DETC).

This course can be completed **online ANYWHERE** in the world.

The World Trichology Society is also pleased to announce that our President, **Dr. David H. Kingsley, PhD** will be overseeing the Trichology component of the course.

This doctoral course is ideal for professionals wishing to learn more about hair & scalp disorders, in particular:

1. Certified Trichologists with a Master's degree or equivalent

2. Healthcare providers associated with the hair and scalp
 - Physician Assistants
 - Nurse Practitioners
 - Medical Assistants
 - Clinical Pharmacists
3. Scientific researchers
4. Dermatologists
5. Primary care physicians
6. Hair restoration surgeons
7. Dermatology industry representatives with Master's degree or equivalent

To register for this D.H.S. course, please contact Huntington College DIRECTLY or visit their website for more information (this course is taken through Huntington College of Health Sciences):
